**1. NATURE OF BUSINESS AND GOING CONCERN**

Copper Lake Resources Ltd. (the “Company” or “Copper Lake”) was incorporated under the laws of the Province of British Columbia on October 17, 1984 and was Continued under the Business Corporations Act of Ontario on January 20, 2022. The Company is in the business of exploration and development of mineral resource properties. The address of the Company’s head office is 1 King Street West, Suite 4800, Toronto, Ontario. The Company’s shares are listed on the TSX-V under the trading symbol CPL and on the OTC under the trading symbol WTCZF.

The Company is a mineral exploration company focused on acquiring, exploring and developing exploration and evaluation assets in Canada. The Company has not yet determined whether these properties contain mineral reserves that are economically recoverable.

These condensed interim financial statements have been prepared on the basis of generally accepted accounting principles applicable to a going concern, which assume that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

The Company has no source of operating cash flows, has not yet achieved profitable operations, has limited working capital, has accumulated losses since its inception, expects to incur further losses in the development of its business and has no assurance that sufficient funding will be available to conduct further exploration of its mineral properties. These material uncertainties cast significant doubt about the Company’s ability to continue as a going concern and, accordingly, the appropriateness of the use of generally accepted accounting principles applicable to a going concern.

In the future, the Company may raise additional financing through the issuance of share capital or shareholder loans, however, there can be no assurance that it will be successful in its efforts to do so and that the terms will be favorable to the Company. These financial statements do not include any adjustments to the carrying values of assets and liabilities, the reported expenses and statement of financial position classifications that might be necessary should the Company be unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Management is seeking to raise the necessary capital to meet its funding requirements. There can be no assurance that management’s plan will be successful. If the going concern assumption were not appropriate for these financial statements, then adjustments would be necessary in the carrying value of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

**2. BASIS OF PREPARATION**

**Statement of compliance**

These condensed interim financial statements (the “financial statements”) have been prepared in accordance with IAS 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and the IFRS Interpretations Committee.

The preparation of these unaudited condensed interim financial statements requires management to make judgements, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expense. In management’s opinion, all adjustments considered necessary for a fair presentation have been included in these unaudited condensed interim financial statements. Interim results are not necessarily indicative of the results expected for the financial year. Actual annual results may differ from interim estimates. The significant judgements made by management applied in the preparation of these unaudited condensed interim financial statements are consistent with those applied and disclosed in the Company’s audited financial statements for the year ended October 31, 2023. For a description of the Company’s critical accounting estimates and assumptions, please refer to the Company’s audited financial statements and related notes for the year ended October 31, 2023.

These unaudited condensed interim financial statements were authorized by the Board of Directors on September 30, 2024.

**Copper Lake Resources Ltd.**  
**Notes to the Condensed Interim Financial Statements**  
**For the Three and Nine months Ended July 31, 2024**

(Unaudited)

(Expressed in Canadian dollars)

---

**2. BASIS OF PREPARATION** (*Continued*)

**Significant accounting estimates and judgments**

The policies applied in these condensed interim financial statements follow the same accounting policies and methods of application as our most recent annual financial statements. Accordingly, they should be read in conjunction with our audited financial statements for the year ended October 31, 2023

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes may differ from these estimates. The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied to the financial statements as at and for the year ended October 31, 2023.

**Functional and presentation currency**

These financial statements are presented in Canadian dollars, which is the Company's functional currency. All financial information is expressed in Canadian dollars unless otherwise stated and have been rounded to the nearest dollar.

**3. MINERAL PROPERTY INTERESTS**

***Marshall Lake Property***

On June 6, 2021, the Company exercised its option to acquire a 75% undivided interest in the Marshall Lake Joint Venture Agreement ("JV Agreement"). Rainy Mountain Royalty Corp. ("Rainy Mountain") retains the remaining 25% interest. Each party is responsible for funding its proportionate share of expenditures of the project. Should Rainy Mountain choose not to contribute its pro rata share, then its interest in the project would be diluted. Once Rainy Mountain's interest is reduced to 10%, it is automatically converted into a 1% Net Smelter Returns Royalty ("NSR"), and Copper Lake would have the right to acquire the NSR at any time for \$1 million.

During 2022, Rainy Mountain did not meet its payment obligations under the JV Agreement for expenditures to April 30, 2022. As a result, Rainy Mountain's interest was diluted to 20.55% and Copper Lake's interest in the property was 79.45% at October 31, 2022. Rainy Mountain's pro rata share of exploration expenditures for the period from May 1, 2022, to October 31, 2023, was \$632,928. The Company received \$400,000 from Rainy Mountain, leaving an amount owing of \$232,098. Rainy Mountain indicated they do not plan to contribute this additional amount, and, as a result, their interest was further diluted to 18.84%, and Copper Lake's interest increased to 81.16% as of October 31, 2023. During the quarter ended January 31, 2024, the Company incurred exploration expenditures of \$231,788, of which Rainy Mountain's share is \$43,667. As Rainy Mountain did not contribute their share by April 30, 2024 their interest was further diluted to 18.52% as of April 30, 2024. During the quarter ended April 30, 2024, the Company incurred exploration expenditures of \$881,624, of which Rainy Mountain's share was \$156,576. As Rainy Mountain not contribute their share by July 31, 2024 their interest was further diluted to 17.42%. During the quarter ended July 31, 2024, the Company incurred exploration expenditures of \$65,111, of which Rainy Mountain's share was \$11,341. Should Rainy Mountain not contribute their share by October 31, 2024 their interest will be further diluted to 17.34%.

***Norton Lake Property***

The Norton Lake property is subject to a joint venture agreement between the Company and Rainy Mountain, which was originally set up in 2009. The property is located north of Thunder Bay, Ontario and the Company is the operator. The Company continues to hold a 69.79% interest and Rainy Mountain holds a 30.21% interest. Certain of the claim units are subject to a 2% NSR (the Company may purchase 1% of the NSR for \$1,000,000 and has a right of first refusal on the remaining 1% NSR). Should Rainy Mountain's interest be reduced to 5%, it is automatically converted into a 2% NSR.

#### **4. CAPITAL STOCK**

The Company is authorized to issue unlimited common shares without par value.

##### **During the nine months ended July 31, 2024, the Company completed the following share transactions:**

In December 2023, the Company closed two tranches of a private placement issuing of 18,840,000 flow-through units (“FT Units”) and 14,720,000 non-flow-through (“NFT Units”) at a price of \$0.025 per FT Unit and NFT Unit for total gross proceeds of \$839,000. Each FT Unit consisted of one flow-through common share and one-half of a common share purchase warrant (a “FT Warrant”), with each FT Warrant being exercisable at \$0.10 for 24 months. Each NFT Unit consists of one non-flow-through share and one common share purchase warrant (a “NFT Warrant”), with each NFT Warrant being exercisable at \$0.10 for 36 months. FT Warrants were valued at \$47,100 and NFT Warrants were valued at \$73,600 using the residual warrant valuation method. The Company recorded a flow-through share price premium of \$94,200 in connection with the closing of the private placement.

The Company paid total finders’ fees of \$19,950 actual in cash, issued 308,000 non-flow-through shares and 1,176,000 non-transferable finders’ warrants exercisable at \$0.10 for a period of 36 months from the closing date. The warrants were valued using the Black-Scholes valuation model and the following assumptions: risk free interest rate of 3.71%; expected life in years – 3; expected volatility of 140%; and expected forfeiture rate – 0%. Expected volatility was based on the historical volatility of the Company’s share price. The value allocated to the warrants was \$29,089.

The Warrants are subject to an accelerated expiry date clause whereby at any time following the expiry of the four-months and one day hold period, should the weighted average closing price of the Common Shares on the TSX Venture Exchange (the “TSX-V”) be more than \$0.20 for a period of 15 consecutive trading days, the Company shall be entitled to accelerate the expiry date of the warrants to a date which is 30 days following the date on which the Company announces the accelerated expiry of the Warrants by press release.

##### **During the nine months ended July 31, 2023, the Company completed the following share transactions:**

The Company received proceeds from the exercise of options totaling \$77,500 during the period.

In December 2022, the Company closed a 1<sup>st</sup> and 2<sup>nd</sup> tranches of a private placement issuing a total of 15,097,472 flow-through units (“FT Units”) at a price of \$0.085 per FT Unit for gross proceeds of \$1,283,285. Each FT Unit consists of one flow-through common share and one-half of a common share purchase warrant (a “FT Warrant”), with each FT Warrant being exercisable at \$0.15 for 36 months. The FT Warrants were valued determined using the Black-Scholes valuation model and the following assumptions: risk free interest rate – 3.48%; expected life in years – 3; expected volatility 207%; and expected forfeiture rate – 0%. Expected volatility was based on the historical volatility of the Company’s share price. The value allocated to the warrants was \$582,106.

The Company paid total finders’ fees of \$82,662 in cash, and issued 905,848 non-transferable finders’ warrants exercisable at \$0.10 for a period of 36 months from the closing date. The warrants were valued determined using the Black-Scholes valuation model and the following assumptions: risk free interest rate – 3.48%; expected life in years – 3; expected volatility 207%; and expected forfeiture rate – 0%. Expected volatility was based on the historical volatility of the Company’s share price. The value allocated to the warrants was \$70,322.

The Warrants are subject to an accelerated expiry date clause whereby at any time following the expiry of the four-months and one day hold period, should the weighted average closing price of the Common Shares on the TSX Venture Exchange (the “TSX-V”) be more than \$0.25 for a period of 15 consecutive trading days, the Company shall be entitled to accelerate the expiry date of the warrants to a date which is 30 days following the date on which the Company announces the accelerated expiry of the Warrants by press release.

##### **Stock Options**

The Company has a share option plan, under which the Board of Directors is authorized to grant options to employees, directors, officers and consultants, enabling them to acquire up to 10% of the issued and outstanding share capital of the Company. The options can be granted for a maximum term of five years. Options granted to investor relations consultants are subject to vesting provisions, as established by regulatory authorities, over a twelve-month period, with no more than ¼ vesting during any three-month period. Vesting provisions for other options are determined by the Company’s Board of Directors.
